Introduction

This manual explains the format and arrangement requirements for your thesis as established by the Graduate College at Drexel University. Please check with your college/school and graduate department for additional requirements.

Because Drexel Thesis format procedures may change from year to year, be sure you use the most recent version of the Thesis Manual (available at http://www.drexel.edu/graduatecollege) to format your thesis. Do not use previously submitted theses as formatting guidelines.

General Information

Thesis and Project Types

Doctoral Thesis

The Doctoral Thesis, or Dissertation, is an extended written treatise that represents original results and interpretations of a unique investigation by the degree candidate. It is required as partial fulfillment for advanced and professional degrees at Drexel University.

Master's Thesis

The Master's Thesis must report independent work but need not include original research by the candidate. Not all departments at Drexel University require a thesis as partial fulfillment for a Master's degree (check with your graduate department for further information).

Master's and Doctoral Projects

Graduate students who complete a final project at the end of their program (e.g. Doctor of Nursing Practice Project, Capstone Projects, Case Studies, etc.) have the option to submit their projects to iDEA, Drexel's online digital repository, where they are made publicly accessible. Unlike theses and dissertations, submission of graduate projects is voluntary. A student who submits their graduate project must sign an iDEA Deposit Agreement, which authorizes Drexel University to provide access to the project.

If you are submitting a graduate project, instead of a traditional thesis/dissertation, visit the <u>Drexel University's Libraries website</u>. If you wish to submit your graduate project but your program is not listed, please contact the University Archives at <u>archives@drexel.edu</u>.

Special Thesis/Dissertation Issues

Copyright

Students hold copyright to their theses and dissertations regardless of whether they (a) choose to include a copyright page in the bound copies of their thesis or (b) register with the Copyright Office. Like other written works, copyright is conferred upon creation, that is when the thesis is written. For more information, see the <u>United States Copyright Office</u> website. More information about how to avoid infringing on someone else's copyright as well as how to protect your own copyright is available via ProQuest.

Plagiarism

If you include in your thesis manuscript copyrighted material that goes beyond the limits of "fair use," you are responsible for obtaining written permission from the copyright holder. Drexel University takes no responsibility for damages that may arise from copyright violations by a degree candidate. Please note Drexel's Academic Integrity Policy. You should also note the Drexel University Student Handbook and information on the Student Conduct website.

Confidential or Secret Theses

As a general rule, it is inappropriate for thesis research to be undertaken on topics that are classified confidential or secret for reasons of national security, or which involve restricted or proprietary information. No thesis covering such topics may be presented without appropriate clearances or releases; these items are the responsibility of the candidate. All researchers must remove or obscure any personal information of your own or of participants in your research.

Style

You can use any professionally recognized style appropriate to your field of study. We recommend consulting a style manual in your field or one of the style manuals listed below. You should also consult with your academic department.

- The Chicago Manual of Style, 16th edition 2010. Available at Hagerty Reference (Z253 .U69 2010) and Hahnemann Reference (PE 1408 U58m 2010)
- Publication Manual of the American Psychological Association, 6th edition 2010. Available at Hagerty Reference and Reserves (BF76.7 .P83 2010) and Hahnemann Reserves (WZ 345 A518p 2010)
- A manual for writers of term papers, theses, and dissertations/Kate L. Turabian, 6th ed. 1996
 Available at Hagerty Reference (LB2369 .T8 1996) and Queen Lane stacks (Z 253 T929m 1996)

Thesis Approval Process

Individual academic departments may have additional requirements or may provide more details not included in this manual. Check with your advisor to find out if you need to follow any special requirements.

1. After you defend, make all content changes as required by your defense committee.

- 2. Obtain all required committee signatures on the Graduate Thesis/Dissertation Approval Form and Signature Page.
- 3. Format your thesis according to the guidelines set forth in this manual and by your department. Your advisor is the final arbiter of thesis formatting.
- 4. Submit your final formatted thesis to your supervising professor for approval. The supervising professor will acknowledge approval by signing the Graduate Program Completion Form. The department head will also acknowledge approval by signing the form.
- 5. Submit your thesis online via ProQuest according to the guidelines at http://www.library.drexel.edu/thesis. Be sure to print a copy of your submission confirmation to provide to the Graduate College with the Graduate Program Completion Form.

Approval Form Requirements

All candidates must fill out two basic forms for Thesis Format Approval: the Graduate Thesis/Dissertation Approval Form and Signature Page (Form T-1) and the Graduate Program Completion Form. Candidates must apply for their degrees online via Drexel One at the beginning of the term in which they plan to earn the degree, following these instructions: http://drexel.edu/drexelcentral/graduation/information/applying-for-degree.

Graduate Thesis/Dissertation Approval Form and Signature Page

- 1. Fill out the top portion of the form. Be sure to type or print clearly.
- 2. Obtain the appropriate signatures as listed on the form.
- 3. Scan and upload a copy of the form and format it as page 1 of your thesis.
- 4. Submit your thesis as a single PDF file with the Graduate Thesis/Dissertation Approval Form and Signature Page as page 1 electronically via ProQuest.
- 5. Print a copy of the submission confirmation page or email to bring to the Graduate College with your Graduate Program Completion Form.

This form is available at http://www.drexel.edu/graduatecollege/forms-policies/forms

Graduate Program Completion Form

- 1. Complete page 1 of the form and sign and date on page 2. Be sure to type or print clearly. Note the checklist items on page 1 and be sure to complete them before submitting the form.
- 2. Obtain the appropriate signatures as listed on page 2 of the form.
- 3. Discuss the embargo request with your advisor, if applicable. The advisor must submit the request to the University Archivist at archives@drexel.edu, if applicable.
- 4. Bring the completed Graduate Program Completion Form to the Graduate College (Main Building, Suite 301) for final degree clearance.

This form is available at http://www.drexel.edu/graduatecollege/forms-policies/forms

Library Submission Information

Electronic Submission

An electronic copy of your thesis is required. Your manuscript will be delivered to ProQuest for inclusion in the ProQuest Dissertations & Theses Global database, and it will be archived and made available by the Libraries in Drexel's open access repository, iDEA (http://idea.library.drexel.edu).

Your electronic thesis must be in PDF format. Please embed all fonts and make sure there is no password protection on the PDF. You may also submit supplementary files, including research data and multimedia files (for example, .jpeg, .gif, .mov, .avi, etc.). For more information about preparing your PDF file and any supplemental files, please see Preparing Your Manuscript for Submission (Including Supplemental Files) at http://www.proquest.com/go/etd_preparingyourmanuscriptguide. If you have any additional questions about acceptable file formats, please contact the University Archivist at archives@drexel.edu.

Submit your electronic thesis and any supplemental files at http://www.etdadmin.com/drexel. For more information, visit http://library.drexel.edu/thesis.

Embargo

You may delay the release of your thesis online if you plan to patent, publish, or go into business with your research. If you would like to embargo your thesis, you must obtain your advisor's permission. Please select the appropriate embargo period (6 months, 1 year, or 2 years) during your electronic submission, and obtain your advisor's signature approving the embargo on the Completion Form. Embargoes may be renewed by contacting the University Archivist at archives@drexel.edu.

Submission Deadlines

The deadline to submit the signed Completion Form to the Graduate College is typically the last day of the first week of classes in the term after you plan to graduate. Please check with the Graduate College for the exact term deadline (graduatecollege@drexel.edu).

Thesis Format and Appearance

Methods of Production

All theses and dissertations must be typed using word processing or page layout software. No other production methods are acceptable.

General Formatting Guidelines

This section describes general formatting rules for all theses. For specific formatting and arrangement rules for each part of the thesis, please refer to Section 3, Thesis Arrangement.

Type

- Font size must range from 9 to 12 points, including chapter titles.
- Print must be legible and readable.
- No specific font is required; however, traditional serif fonts such as Times New Roman or Palatino are encouraged. Fonts must be consistent throughout the document (e.g., if captions are 10-point Times in chapter 1, they must be 10-point Times in all other chapters).
- Where hand work is required, use black India ink. Characters not available in type should be lettered using lettering guides where possible.

Margins

- Headings and subheadings must have at least two full lines of body text below them. If only one line of text fits below a heading, move the heading to the next page.

Pagination

- Number all pages consecutively

- Use lowercase Roman numerals for preliminary pages.
- Use Arabic numbers for the text, references, appendices, bibliography, and all other pages including photographs, illustrations, and drawings.
- Begin page numbers on the first page of the text and continue in consecutive order until the end of the dissertation or thesis, including all appendix pages.
- Page numbers on landscaped pages should be in portrait orientation.
- Do not use a period after the page number.
- Do not number the title page even though it is counted as "i."
- Do not insert lettered page numbers such as 10a, 10b, 10c, etc.

Spacing

- Double space general text material.
- Insert at least 3 single-spaced lines of space above table captions and figures and below figures captions, tables, and other graphics.
- Single space footnotes and long quotations.
- Single space bibliographic entries, but double space between each bibliographic entry.

Footnotes

• Separate footnotes from the text with a line, and leave one single-spaced line of space between the line and the footnote.

Tables and Figures

- For both tables and figures, use a word processor or black India ink and a lettering guide for captions, numerals, symbols and characters.
- Color may be used.
- Insert at least 3 single-spaced lines of space above table captions and figures and below figure captions, tables, and other graphics.
- Place figure captions below figures. Place table captions above tables.
- If a figure or a table continues onto a subsequent page(s), include the following caption: Table x (continued) or Figure x (continued).
- Landscaped figures and tables should have landscaped captions. Page numbers should be in portrait orientation.
- Tables and figures can be grouped in a separate chapter in the text or as an appendix.

- These pages are counted and numbered in Arabic numerals.

Appendices
